GOT RID OF MY CORNS WITH MAGIC "GETS-IT"

Simplest Corn Cure in the World—
No Pain, No Fuss. New, Sure
Way.

When corns make you almost "die
with your boots on," when you've
soaked them and picked them and
sliced them, when corn-swelling
salves, and tapes, bandages, and

Why Have Corns At All When "Gets-It"

Removes Them the New, Dead-Sure Way?

plasters that make corns pop-eyed

have only made your corns grow

faster, just hold your heart a moment

and figure this: Put two drops of

"Gets-It" on the corn. It dries

at once. You can put your shoe

and stocking on right over it. The

corn is doomed. It makes the corn

come off clear and clean. It's the

new, easy way. Nothing to stick or

press on the corn. You can wear

smaller shoes. You'll be a joy-walk-

er. No pain, no trouble. Accept no

substitutes.

"Gets-It" is sold by druggists every-

where, 25c a bottle, or sent direct by

E. Lawrence & Co., Chicago, Ill. Sold

in Honolulu and recommended as the

world's best corn remedy by Benson,

Smith & Co., Ltd., Fort and Hotel

streets, and Hollister Drug Co.—Adv.

British consular officers in the United

States have been instructed and

warned by the British embassy to

avoid being drawn into anything that

might be construed as interference

with American politics.

Strikes and lockouts throughout the

United States recently have been un-

usually numerous, according to a

statement by the department of labor.

The six months produced 1069 and in

April alone there were 268.

Six men were lost in the attack by

a submarine on the German steamer

Rosga, sunk in the Baltic on May 17.

Others suffer from being in the

room with those whose breath is not

sweet, and who are unaware of it.

Of course, the only cure for a

bad breath is to straighten out the

digestion, since the trouble usually

starts with the stomach. Remem-

ber what you ate that likely upset

you, and try to avoid that dish in

future.

When you notice a bad breath

first, take a laxative at once; this

will help clear away the undigested

particles that cause the taint; drink

plenty of water—hot, if pos-

sible—and eat lightly for a day or

so. If your teeth are in need of fix-

ing, go to a dentist for many

breath and stomach troubles origi-

nate right there.

Onions, of course, flavor the

breath for quite a time, but if you

drink milk while you eat them—if

they have been cooked—the milk

will absorb much of the odor. That

is why creamed onions scarcely

leave any trace on the breath.

Meatmeal, while permanently

curbing a bad breath, eat strong

peppermint or the breath-sweeten-

ers in confectionery stores—these

all help.

But get to the source of the

trouble at once—remember the cur-

ative values of hot water, and of a

laxative. A sweet stomach will

keep your eyes bright, your brain

fresh, your breath perfect.

Questions and Answers

Is cold cream a skin food? If not, can

you tell me of some good skin food and

how to use it?—Suburbanite.

Reply—Any good cream is also a skin

food. Under that name, though, there are

mistakes that contain, beside the ingredients

in the cream, a fattening ingredient, such

as lanoline. A skin food with this in it

is rarely used on the face, and kept generally

for filling out hollows, such as those in

the collar bones. If you care for my

recipe, I shall be pleased to send it and

directions on how to apply it. Send a

stamped, addressed envelope.

Is there any method of reducing the

ankles?—A Reader.

Reply—If you are in good health and

have large ankles, they are likely constitu-

tional and little can be done to change

their size. If they are enlarged by ad-

ipose tissue, you can massage that off.

Never wear any white spats to call

attention to them.
